Hargrave, Neil Judd, A.J. "Lex" Lindsay, P. Long, M. Middleton, T. Nichols, L. W. Smith, C. Turner, W.M. Wells, and Barton Wright.

Organizational History:

In 1959, the Photography Department and position of Photographer created by director Dr. E. B. Danson, with Parker Hamilton as MNA's first Assistant in Photography, later that year promoted to Photographer. Prior to 1959, the photo archives were a part of the Publications Department but not under the management of a photographer. In 1960, a large-scale cataloging initiative of new and old prints, negatives, and slides was undertaken. A photography studio and cataloging room was established in Fleischman Hall (now Schaeffer) in 1965. An inventory was made of negatives in June 1969 which noted missing negatives. By the early 1980s the Photography Department became the Photo Archives, reflecting a shift in focus from active photography to preservation of and access to existing materials. An inventory of negatives was done again in February 1988 with notes made of missing negatives. The Photo Archives moved to the Library in 1995.

In 2005, the Photo Archives ceased operation as a department, and staff photography became the responsibility of the Marketing Department while the care of materials and use requests were the responsibility of the Library staff. The Photo Archives were made the responsibility of the Archivist in 2008. In 2013 the Photo Archives was moved from the Library in the Administrative building to the Archives in the Easton Collection Center. In December 2013, extensive conservation work was begun on sections of the Photo Archives with funding from the Institute of Museum and Library Services. Conservation care has continued with funding from a variety of sources like the NEH, Southwest Foundation, and the Arizona Historical Records Advisory Board.
