## FOREWORD

*Notes from the Museum of Northern Arizona*, a news bulletin concerning Museum activities began monthly publication in July 1928. In September 1929 (Vol. 2, No. 3), the title was changed to *Museum Notes of the Museum of Northern Arizona*, and short articles on interesting features of the Flagstaff area began to appear. In July 1939, with the first issue of Vol. 12, the name was changed to *Plateau*, a quarterly continuing the Museum Notes.

For Museum Notes and Plateau title pages, tables of contents and cumulative indexes have been printed and distributed every four years so that four volumes could be bound together. Volumes designed for binding together have been Museum Notes: Vols. 1—4, 5—8, 9—11 (3 vols. only); Plateau: 12—15, 16—19, 20—23, 24—27, and 28—31. The bibliography herewith presented covers all articles from Vol. 2, No. 3, Sept. 1929, through Vol. 31, ending April 1959, so that for convenience it may be shelved following Vols. 28—31.

The citations are listed alphabetically by author, with full title and publication date, followed in a second section by a subject list of the papers cited. There has been a long-felt need for a complete list of articles, and it has been arranged for the convenience of those seeking information on northern Arizona, particularly in the fields of archaeology, ethnology, Indian arts and crafts, geology and paleontology, history, botany, zoology and places of interest.

Many issues of Museum Notes and Plateau prior to Vol. 24 (1951-52) are out of print. Inquiries about others may be directed to Publications Office, Museum of Northern Arizona, P. O. Box 1389 Flagstaff. Availability of Bulletins, Ceramic Series, Reprint Series, and Technical Series is noted as of December 1961.
