AUSTRALIAN ROCK ART BIBLIOGRAPHY EXTRACTED FROM THE ROCK ART STUDIES BIBLIOGRAPHIC DATABASE FOR THE YEARS 1841 TO 2018 – PART 2

Leigh Marymor

Abstract. The Rock Art Studies Bibliographic Database is an open access, online resource that fulfils the need for a searchable portal into the world's rock art literature. The Australian Rock Art Bibliography results from an export of approximately 1980 citations from the RAS database and captures a freeze-frame in the state of Australian rock art literature as compiled here in the year 2018. The online version of the RAS Bibliographic Database at the Museum of Northern Arizona is updated annually, and we refer the reader to that resource for up-to-date bibliographic data revisions and additions. Researchers who consult the online database in concert with their reference to the Australian Rock Art Bibliography will discover a powerful ally in further refining geographic and thematic inquiries.
